PROFILE

I am a young, eager programmer looking to apply the skills I have been developing at college for the information technology industry. Graduating this year, I am looking forward to applying my learnings and growing into a strong contributor. I am confident that I can bring value to a tech-focused team.

EDUCATION

Nova Scotia Community College Halifax, NS. - IT Programming – graduating April 2023.
Halifax West High School, Halifax, NS. Diploma 2020.

TRAINING

Microsoft Office 365 – SharePoint, Outlook, Teams, PowerApps.
Programming languages - Java, Python, C#, C++, JavaScript.
Database fundamentals including SQL and Maria DB.
Operating Systems - Windows and Linux administration.
Web design – HTML, CSS.
WHMIS certified.

PROJECTS

NSCC Capstone Project – Weather Wardrobe app

A group project, we were tasked to design our own real-world project. Working on a team of coders, we leveraged a weather application programming interface (API) and a clothing database to develop an app that generates an outfit recommendation for the weather forecast.

NFC/RFID Inventory System

Using PowerApps during my First Work Term, I was tasked with creating a system to track inventory with NFC/RFID tags. I used Microsoft PowerApps to create a mobile app that would allow users to scan the tags and synchronize the information to a Excel spreadsheet.

Halifax West R2D2 Project — Science & Math department

Replication of the robot R2D2 from award-winning film series Star Wars by a team of students overseen by department faculty. Used a variety of technologies for movement, remote function, and aesthetics.

WORK TERM 2022

Public Servant - Government of Canada, Department of National Defense, Naval Atlantic Fleet School

Updated the digital presence of a local military division. Working within SharePoint and other Microsoft Office 365 products. Researched, designed, and tested an NFC/RFID inventory tracking system using Microsoft PowerApps.
